About The Home

BY FRANCES DELL

There is a popular saying, peculiar to mordern living. "madison Ad-venue has made the mink coat, not the lab coat, woman's symbol of success." This certainly seems to be the unhappy truth today.

There are many people who think women's brains are wasted in the U. S. The first and finest profession for a woman is the role of mother and homemaker. However, it is important for a woman to be a personality in her own right.

A college education is one of the most important things you can give to your child, ranking next to a firm Christian faith and a sound philosophy of life. It will add enjoyment and insight for as long as she lives.

There was a time when a girl has two roads open to her, professionally, after a college education — to be a secretary or a teacher. Not to detract from either of these important fields — today we find young women happily engaged in almost every field of endeavor.

We are, as a nation, outgrowing the traditional old hat attitudes that scientific work is for men only. No longer do we consider it unfeminine and abnormal for a girl to become a lawyer, a geophysicist or even a chemical engineer.

The mass media today have emphasized leisure time, not hard work and originality. we do see many signs that orginality is becoming appreciated as an outstanding personality and character trait, however. The result seems to be that today's average schoolgirl thinks that it is far more exciting to serve tea on an airplane than to foam a new plastic in a laboratory, for example.

This attitude is formed and created in the mordern home by modern parents. We must furnish our children food for thought as well as food to grow strong and healthy bodies if we are to call ourselves successful homemakers.

Appomattox is a growing town.

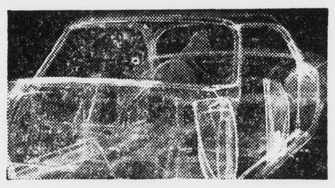
ANNOUNCING THE NEW PLYMOUTH!

SOLID FOR '60! AT YOUR DEALER'S TOMORROW!

BUILT A NEW SOLID WAY TO GIVE YOU SOLID SATISFACTION

CHRYSLER ENGINEERING INTRODUCES A NEW KIND OF PLYMOUTH THAT MARKS A MAJOR BREAKTHROUGH IN CAR DESIGN. BODY AND FRAME UNIT ARE WELDED TOGETHER AS ONE, IN A NEW WAY. MANY PARTS THAT WORK LOOSE, RATTLE AND NEED FIXING IN ORDINARY CARS ARE ELIMINATED. THIS LOW-PRICE '60 PLYMOUTH IS STRONGER AND ROOMIER. IT USES LESS GAS THAN BEFORE. IT RIDES MORE COMFORTABLY, WE BELIEVE, THAN ANY OTHER CAR IN ITS CLASS.



PLYMOUTH'S NEW DURA-QUIET UNIBODY is a rigidly-formed structure, locked by approximately 5400 precise welds. It has no conventional body bolts, braces, struts or stays to give trouble. Road noises and road shocks are dampened. Even the sound of the w hushed.

We doubt if any car at any price has ever ridden or handled as well as this new low-price automobile. Practical Stabilizer Design, incorporating rear stabilizer fins, adds stability on the road, cuts wind resistance, gives better gas mileage.

The new Solid Plymouth is a young, exciting car with ten full years of Chrysler Corporation development behind it. It will suit you particularly if you want a feeling of quality and a sense of craftsmanship. It is built carefully and precisely. We believe there is no other car in the low-price field that resembles it.

AN ALL-NEW INCLINED OVERHEAD VALVE "6" IS AMONG FIVE PLYMOUTH ENGINE OPTIONS FOR 1960. The first *inclined* engine ever in an American passenger car is the new Plymouth *30-D Economy Six*, most powerful "6" in America. Very economical, it is inclined to make servicing simpler, to lower the car's center of gravity and to make handling and riding easier. Also for 1960: the limited-production *SonoRamic Commando V-8**.

SOLID PLYMOUTH 1960 OFFERS FEATURES NO OTHER CAR IN ITS CLASS CAN OFFER. *Custom-Positioned Front Seat. Safe-T-Matic doorlocking system*. RCA "45" Record Player**. And many more.

**Optional at extra cost*
